

VETERINARY PRACTITIONERS REGISTRATION BOARD OF VICTORIA

AGREEMENT TO SUPERVISE

Veterinary practitioners who agree to supervise must be registered in Victoria. Please complete this agreement and forward the original to the Veterinary Practitioners Registration Board of Victoria at Level 11, 470 Collins Street, Melbourne 3000.

Where the registration of a veterinary practitioner requires the supervision of another veterinary practitioner, the supervision can be either direct or indirect as determined by the Veterinary Practitioners Registration Board of Victoria.

Direct Supervision means continuous and direct personal supervision by a registered veterinary practitioner. The supervising practitioner must be at the same premises or in the case of a visit, must accompany the person being supervised. The supervising veterinary practitioner accepts responsibility for the standard of care provided by the person under their supervision.

Indirect Supervision means that the supervising practitioner is not required to accompany the supervised person, but must be available to provide advice or direction whenever the person being supervised is working. It is expected that the supervising practitioner maintains conscientious oversight of the work done by the supervised person. The supervising veterinary practitioner accepts responsibility for the standard of care provided by the person under their supervision.

Supervising Veterinary Practitioner
